

JOIN TOGETHER [The Who]

When you hear the sound a comin
Hear the drummers drummin
I want you to join together with the band

We don't move in a particular direction
And we don't take no collection
I want you to join together with the band

Do you really think I care
What you eat or what you wear
I want you to join together with the band

There's a million ways to laugh
And everyone's a path
Come on and join together with the band

Join together
Join together
Join together with the band

We need you to join together
Join together
Join together with the band

It's the singer not the song
That makes the music move along
I want you to join together with the band

This is the biggest band you'll find
It's as deep as it is wide
Come on and join together with the band

Join together
Join together
Join together with the band

We need you to Join together
Join together
Join together with the band

Join together
Join together
Join together with the band

Join together
Join together

Join together with the band

Join together

Join together

Join together with the band

We need you to join together

Join together

Join together with the band
